## "LIMONCELLO ETIQUETTE"

The beauty of this Italian liqueur is that it can be enjoyed in a number of different ways - as long as it is served cold. Every bottle should be chilled for at least an hour before serving.

The correct glassware for limoncello is dependent on how you are enjoying the drink, but if you are searching for the traditional experience, a clear chilled shot glass should be chosen.

As limoncello is such a versatile liqueur, it makes an excellent base for a range of cocktails, like Pococello's hero serve, the Sunshine Spritz.

It is often utilized to give an old classic drink a lemony twist or within innovative new cocktail creations.

Harry Pattison, General Manager, Pococello
